## EXPANDING OUR REACH: RETAIL TO INDUSTRY

One of the questions we consistently receive comes from retail pharmacists looking to break into pharma. Many pharmacists want to make the leap from practice to industry, but don't know where to start and are unsure how to make that transition. The Professional Development Committee partnered with YBP professionals that have successfully made this transition and put together an insightful webinar which was fully accessible to external audiences and members alike. Please visit our website to gain access to the recording which is available for everyone - so many amazing pearls were dropped!

## PARTNERSHIP WITH VERTEX

We are thrilled to partner with pharmaceutical companies that share similar values. YBP has teamed up with Vertex Pharmaceuticals to provide our network with direct access to select open opportunities that will drive professional advancement and help build top talent. We look forward to collaborating with more industry partners to continue advancing our network and providing access to even greater opportunities! Please be on the lookout for ongoing notifications from our team on behalf of Vertex Pharmaceuticals!
